Legacy of caring.

Our founders were true visionaries driven to deliver compassionate care and inspire individuals to improve their whole health starting in 1882. When you think of Centura Health as a 140-year ministry, we are a small part of a larger, rich history.

We are standing on the shoulders of giants, building on the discoveries made by the faithful, risk-taking pioneers who came before us.

Gracel F.,
Pharmacy

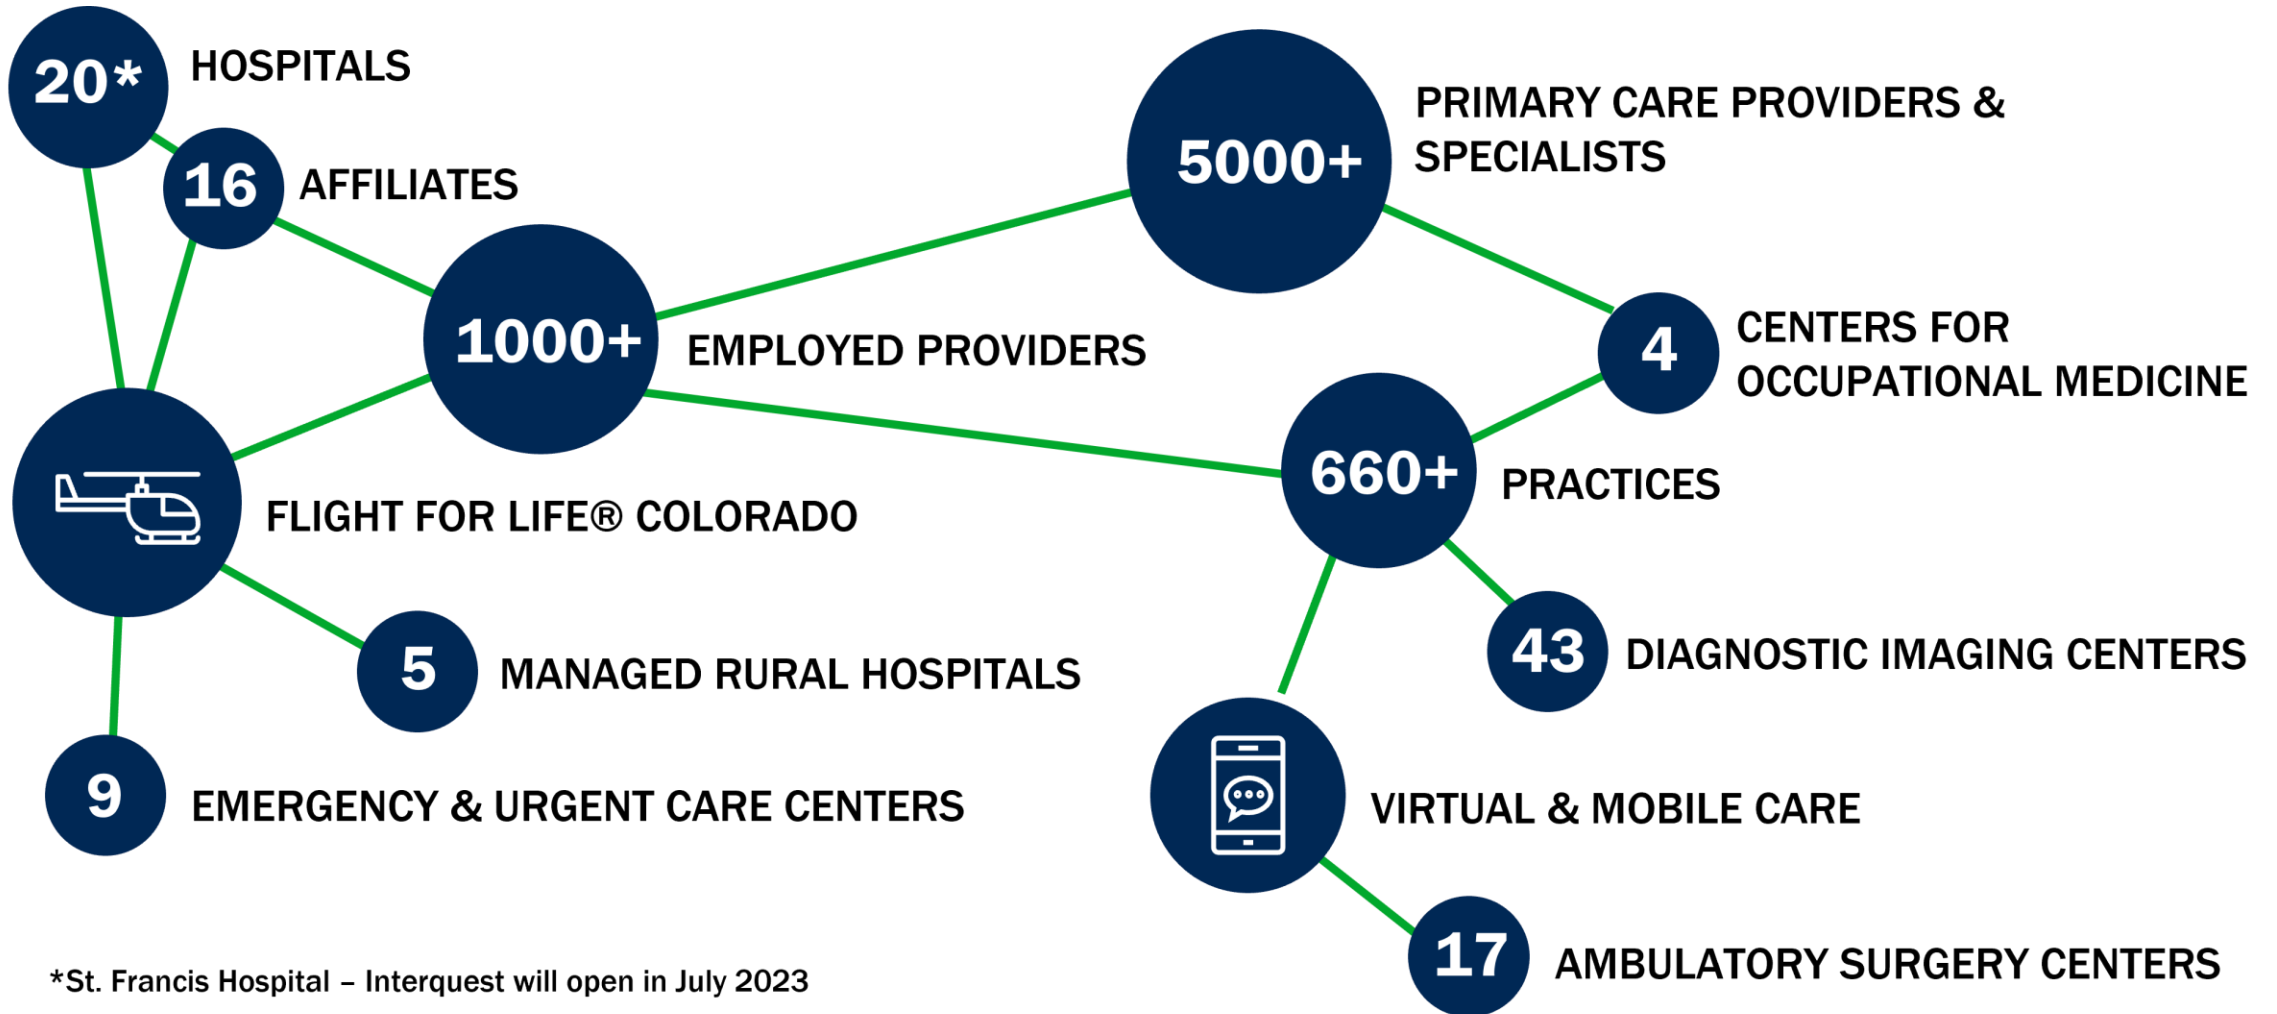

Our Mission has been inspiring since day one.

We'll always be evolving — you and our communities — but our hard work and commitment are rooted in big things that never quite change.

We extend the healing ministry of Christ by caring for those who are ill and by nurturing the health of the people in our communities.

Health is better where we are.

*St. Francis Hospital - Interquest will open in July 2023

A Cornerstone of Care in This Community

World class doctors. Compassionate care.

When Parker Adventist Hospital opened in 2004, it set a new standard of care in the community. Its welcoming atmosphere, patient-centered holistic care and community commitment have represented the hospital's foundation from the beginning. Over time, the hospital has expanded its facility and enhanced its services to be able to care for even the most complicated cases - all without losing sight of those key founding principles.

Awards and recognition

- ✓ Magnet Designation | Nursing Excellence Designated by the American Nurses Credentialing Center (ANCC)
- ✓ Nationally Certified Bariatric Program by The Joint Commission
- ✓ Nationally Accredited Breast Care Center
- ✓ Accredited Cancer Center by ACR
- ✓ Joint Commission-certified Spine Program
- ✓ Joint Commission-certified Joint Replacement Program

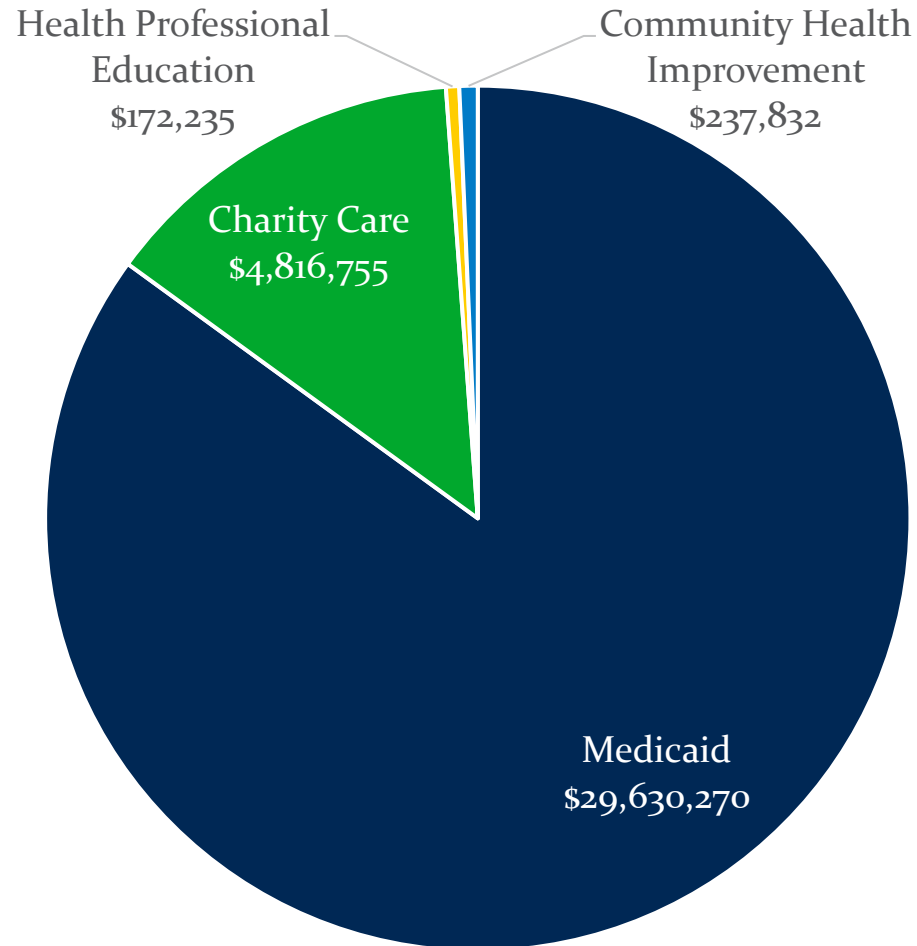

**Arapahoe and
Douglas Counties**

Community Benefit Fiscal Year 2022

\$34.8 Million

The Hospital Transformation Program

Hospital Transformation Program (HTP)

- Quality Improvement program specifically for Health First Colorado members
- Over the course of the five-year program, provider fee-funded hospital payments will transition from pay-for-process and reporting to a pay-for-performance structure in an effort to improve quality, demonstrate meaningful community engagement and improve health outcomes over time.
- Community engagement is a key component of our work

All Hospitals are Required to Work on These Six Measures

- **Readmissions:** Making sure people do not need to be re-hospitalized within the 30 days after being discharged from the hospital
- **Screening for Social Needs:** Asking people if they have any concerns about food, housing, transportation, utilities, or violence in their homes and helping them find resources to meet their needs
- **Behavioral health:** Working with Medicaid to make sure people with mental illness or substance use disorders have good plans in place when they're discharged from the hospital
- **ALTOs:** Alternatives to Opioids – giving people in pain in the Emergency Department pain medications that are not opioids
- **Hospital Index:** Improving the quality of care that patients receive and reducing the cost of care
- **Length of Stay:** Getting people out of the hospital quicker

Choice Measures & Updates

- **Statins for Stroke Patients**
- **30-Day Readmissions**
 - Specific Readmission Prevention Goals for HTN, Asthma, COPD, Heart Failure, and Diabetes
- **Pregnant and postpartum depression screening-**
- **Medication prescriptions for Opioid Use disorder in the ED**
- **Screening for Social Determinants of Health**

Looking Forward: What Are Other Important Needs to Consider?

- ✓ What should we consider as we move forward with our work?
- ✓ Let us know if you would like to work with us to address our measures.

Please respond to our survey following the meeting.

Community Health Priorities

Living our Mission

Community Health Priorities

2020 - 2022

Behavioral Health

Access to Healthy Affordable Food

2022 - 2025

Behavioral Health

Access to Healthy Affordable Food

Strategic Objectives

- ✓ Advance community health alignment and integration
- ✓ Build capacity for more equitable communities
- ✓ Expand clinical community partnerships and linkages
- ✓ Inspire, innovate and scale high impact initiatives
