

Choosing Long Term Acute Care

AdventHealth Connerton, a long-term acute care hospital, has been recommended for your continued care. AdventHealth Connerton is part of AdventHealth. Staying within the AdventHealth system means you will receive high quality, safe, whole-person care as you continue to recover. Your electronic medical record will be accessible at AdventHealth Connerton, providing you with a seamless transition of care. A Clinical Liaison will connect with you to explain the LTAC services you can expect and answer any questions you may have.

As a patient at AdventHealth Connerton, you can rest assured you will receive high quality care. Our hospital meets or exceeds national quality benchmarks for care, including successful return to home, low readmissions, prevention of health care associated infections and more.

Center for Medicare and Medicaid Services (CMS)
