

Lifespan Down Syndrome Program

First in the Southeast

About the Program

Kids diagnosed with Down syndrome bring extra love to their families, and they may also have extra needs. Through this new comprehensive program, we're expanding our existing pediatric programs to meet the unique needs of the Down syndrome community - from diagnosis through adulthood.

Driven by their passion to support the Down syndrome community, Mark and Victoria Tremonti were inspired by their baby girl Stella. They knew she would change their lives, and maybe the world. Like a bright star, her story lit the way for this brand-new program to support babies, kids, adults and families who have a little something extra.

Our Partners

Members of the Down syndrome community rely on a network of organizations that help them and their families at every life stage. AdventHealth for Children is honored to partner with these organizations to help meet these specialized needs.

This is only the beginning of what will be a comprehensive and wide-ranging list of resources and partners for Down syndrome patients and families. We're committed to growing this program to help ensure that you and your family feel whole.

SMILE with Stella Tremonti Down Syndrome Clinic

Support, Movement, Intervention, Love and Expertise

The SMILE with Stella Tremonti Down Syndrome Clinic is home to experienced primary care clinicians and connected to specialists like speech, occupational and physical therapists, registered dietitians, and exercise physiologists. The clinic also serves as an education arm for families, offering classes and specialty programming. And, our care coordinators and social workers are here to support the whole family with guidance and resources through every stage of life.

Our Providers

At SMILE, we're here to support not only your child, but your whole family. We'll be with you for every phase of life — from birth through adulthood.

Pediatric Care

Stacy McConkey, MD, FAAP

Lilian Ablan Roldan, MD, FAAP

Jennifer Ketchersid, APRN

Adult Care

Asef Mahmud, MD, FAAP

Personalized Care Coordination

Our Down syndrome program care coordinator supports your family as your main point of contact for all your care needs. They can:

- Schedule appointments with our providers and other specialists
- Connect you with community resources
- Answer any questions you may have throughout the care process

Your care coordinator will help you navigate through our system, connecting you with services available through more than 250 specialists in 35 specialties, as well as therapies and rehabilitation.

**To contact your care coordinator,
call 407-609-4648.**
