

Crisis Response Team Services

The UChicago Medicine AdventHealth Crisis Response Team has been trained to facilitate crisis debriefings and other processing techniques related to traumatic incidents and crisis situations. The team can be scheduled for individuals or teams by completing the short online form available through the link, <https://forms.office.com/r/x7tE4Bpje3>, or QR code.

Replies should be within 24 hours on weekdays.

Additional programs and offerings may be scheduled, such as one-to-one rounding for post crisis event support, as well as open forum listening sessions either virtually or in person.

Examples may include, but are not limited to,

- Traumatic death
- Team crisis event
- Community related crisis
- Individual team member crisis (personal or professional)
