

Clinical Brief #19 | COVID-19

Developed Friday, April 17, 2020

INFORMATION FOR ALL CLINICIANS

Clinical leaders are providing frequent updates to all clinicians in an effort to keep you current about AdventHealth's response to COVID-19. The following topics are included in this brief:

- Medical/Surgical Staffing Model
- Redeployment Toolkit
- New COVID-19 PCR ICU Order iExtend

5:00 pm April 17 COVID-19 Situation Report

*Based on COVID-19 Power BI Dashboard data

COVID-19	CFD	WFD	MSD
Total Confirmed	1,197	115	160
Currently Inpatient	102	28	26
Total Negative Tests	15,196	1,701	1,342
Current PUI	77	77	25

Medical/Surgical Staffing Model

The [Medical/Surgical staffing model](#) is a framework for staffing the care of patients during the COVID-19 pandemic surge. Contingency and crisis staffing models for three phases (conventional, contingency and crisis) are provided for use, depending on the number of experienced RNs and other staff available.

Staffing models for [physicians, RNs and respiratory therapists](#) were also created and shared in the [April 7 Clinical Brief](#).

Redeployment Toolkits

Redeployment toolkits are designed to aid in the education and onboarding of staff for specific roles during the COVID-19 pandemic. [These toolkits](#) are available for RNs (acute care and non-acute care), respiratory therapists and patient assistants. Please share with your clinical leadership team and deploy as needed.

For the RN and based on training time available, you may select rapid onboarding or a one- to three-day orientation timeframe to develop additional skills.

New COVID-19 PCR ICU Order iConnect

When ordering COVID-19 PCR tests for patients who are currently in the ICU, or will be going to the ICU from the Emergency Department (ED) or another clinical area, please use the "[Coronavirus 2019 PCR ICU](#)" in iExtend so the lab can prioritize the order for processing.
