

To My Patient,

Thank you for entrusting me with your care during this time away from home and in the hospital.

I am privileged to be your hospitalist doctor here at AdventHealth. I am committed to caring for you and your medical conditions in coordination with your health care team. Our hospitalist group involvement starts from admission, continues throughout your stay and ends at discharge. We want to assure every AdventHealth patient attended by a hospitalist will receive top clinical care, communication and coordination of health services delivered with uncommon compassion consistent with our mission of Extending the Healing Ministry of Christ.

I would like to care for you as a whole person including body, mind and spirit. Please let me or my team know if there is anything we can do to help you feel whole during your stay here.
